

HDW-PU3 Series **500GB**

Expand your smartphone or tablet's capacity

■ Carry your media library along with your smartphone or tablet

Write up to 500 GB of your favorite data from your PC/Mac or other storage to the drive, then enjoy the content on your smart device—no need to limit yourself to the capacity on your iPhone, iPad, Android devices. Watch movies from beginning to end, listen through your longest playlists, show your most data-intensive presentations—it all fits.

* Figures represent the average number of photos taken with a 10 megapixel camera with an average file size of 2.2 MB per photo.

** Figures represent the number of movies based on an average file size of 1 GB per movie.

*** Figures represent the number of MP3 files at an average length of 00:03:25/160 Kbps with an average file size of 4 MB per song.

■ Dual interface features both Wi-Fi and SuperSpeed USB 3.0

• Upload (write) and download (read) data wirelessly with any Wi-Fi connection or using a SuperSpeed USB 3.0 cable.

• Easy backup from your smartphone data or tablet data direct

Wi-Fi and USB 3.0 connections make it easy back up photos, video, music, and other data on your smartphone or tablet.

Always keep it with your smartphone or tablet for additional storage.

■ Multi-user connection lets you share with multiple friends and family members

You can simultaneously connect different devices to the drive via Wi-Fi and stream different movies to each device.

The multiple connection also lets each user access different music, photos, and documents. Now friends and family can all access their favorite movies stored on the drive, all at the same time.

* Wifi connection limited to smartphones and tablets; access from PC or Mac available only via USB.

■ "Internet mode" provides Internet access with any Wi-Fi connection

This hard drive also connects you to the Internet. With access to a wireless LAN, you can then simultaneously surf the Internet while enjoying music, going through your photo albums, putting the finishing touches on your latest spreadsheet, etc.—all through your smartphone, tablet.
